PROFILE

SSR Full Stack Developer with an ownership mindset and experience building scalable web applications. Specialist in React, Vue, and RESTful API design. Experienced in leading technical teams, optimizing database performance, and making end-to-end architectural decisions. Committed to clean code, technical debt reduction, and delivering high-impact business value in fast-paced environments.

WORK EXPERIENCE

Full Stack Developer

Mendoza, Argentina

Fydels

02/2025 - Present

- Led a multidisciplinary team of 5 developers, ensuring feature delivery aligned with business objectives and improving Developer Experience (DevEx) through strategic planning.
- Optimized rendering and state management to significantly reduce load times for 150K users base.
- Designed and implemented real-time systems using WebSockets for low-latency communications and AI-assisted chat features.
- Developed an end-to-end metrics system that resulted in a 30% increase in conversions by optimizing data flows for SaaS scaling.
- Implemented code review best practices and technical debt reduction strategies to ensure a maintainable and scalable architecture.

Full Stack Developer

Remote

EstoyAca

2023 - 2025

- Developed an end-to-end Web Application featuring critical modules such as geolocation, payment gateways, and real-time synchronization.
- Collaborated on defining data structures and business logic, optimizing service communication and overall system stability.
- Integrated multiple external APIs and third-party services, ensuring data consistency and a seamless user experience.
- Focused on performance tuning to ensure high availability during peak demand periods.

Full Stack Developer

Argentina

Henry

01/2022 - 08/2022

- Accelerated the integration of new features by 20% through architectural improvements and code design.
- Developed critical real-time features by integrating WebSockets and consuming RESTful APIs to deliver a highly interactive user experience.
- Redesigned global state architecture to reduce technical debt and improve code maintainability.

EDUCATION

UTN - Universidad Tecnológica Nacional, Mendoza, Argentina

Associate Degree in Programming

TECHNICAL SKILLS

Languages & Frameworks:: JavaScript (ES6+), TypeScript, React, Vue.js, Node.js, Ruby on Rails, Java

Databases:: PostgreSQL, MySQL, SQL Optimization, Relational Databases

Infrastructure & Tools:: Git, Docker, AWS (S3, EC2), CI/CD, Apache Kafka, Postman, Sentry

Architecture & Performance:: WebSockets, RESTful APIs, Microservices, Clean Code, Scalable Systems

Soft Skills:: Ownership, Technical Leadership, Proactive Decision Making, Agile (Scrum/Kanban)

LANGUAGES

Spanish (Native), English (Upper-Intermediate B2 - Professional Working Proficiency)
